

Managed Care Contracts

Kettering Health Physician Partners negotiates contracts on behalf of our providers who are equitably compensated for the high-quality care and cost management they provide to their members. With a selective contract category methodology, we provide a variety of participation options that will infuse your practice with exceptional benefits.

In the past five years, Kettering Health Physician Partners has paid millions of dollars through our incentive payment program, which is divided into three main sections:

1. Quality
2. Care management
3. Shared savings
